SPD II AC Surge Protectors

NEW

Special Price of $**32.10**

The SPD II range of surge protectors are used for transient surge protection of single and multi-phase power circuits at the main electrical panel. The SPD design is based on high-energy varistors (MOVs) equipped with thermal disconnects and integral failure indicators. A remote signaling contact for disconnection indication is standard on each unit. Typical applications include low voltage distribution, or protection of industrial control systems, equipment assemblies and devices. Units are rated as per UL1449 3rd Edition for USA and Canada.

SPD II 120V/40kA

• for single or multi-phase
  circuits at 120/208Vac

Stripax® and Stripax Plus Wire Strippers/Cutters

The ever popular Stripax tool
• **Stripping range 28…8 AWG**
• **Max Stripping Length 1" (25mm)**
• **Max Cutting Performance 10 AWG**

The Stripax Plus adds the convenience of wire end ferrule crimping. Cutting, stripping and crimping tool for insulated wire end ferrules in strips with 0.5...2.5mm² (~AWG 20...14).
• **Easy handling of wire end ferrules**
• **Automatic feeding of wire end ferrules**
• **Adjustable wheel for crimping**
• **Wire end ferrules in strip form sold in 10 strips of 50 ferrules (sold in bags of 500 only)**

Small Power Supplies

DIN-rail mountable
- Output voltage adjustable via potentiometer
- Wide-range input: 85…264Vac / 120…300Vdc
- LED status indicator
- For TS 35 mounting rails
- Option for connecting in parallel
- International approvals for use worldwide: CE, cRUus, cULus Listed and cCSAus

Coloured Mini-Terminal Blocks — Blow Out Sale

Small and compact
- Feed-through terminal with clamping yoke connection
- TS 15 miniature DIN-rail mountable
- New Wemid material for the AKZ coloured terminals
- Flammability rating of UL94 V-0 for all colours
- Temperature range of -50°C to 120°C
- CSA/UL approvals (300V, 10A) and RoHS compliant

Catalog #	Description	Regular Price	Special Price
9537110000	AKZ 4 WEMID DB	$1.61 ea.	$0.50 ea.

Industrial Wireless Ethernet Modems

High bandwidth modems offer long range capabilities and greater throughput

NEW

Easy Configuration with Plug & Play Capability

Based on the 802.11 a/b/g standard can easily be integrated into existing systems and configured using embedded software

3 Frequency Ranges to Ensure Reliable Communication

900Mhz DSSS for long distance
2.4Ghz for greater throughput
5.8Ghz for highly saturated environments

Multifunction Capabilities

Easily configured as
- Access Point / Client
- Bridge / Router
- On Board Diagnostics
- Integrated DI/DO

Meshing

WDS Meshing and Redundant Functionality with RTSP

Gateway Functionality

Can be used for conversion for Modbus TCP to Modbus RTU/ Modbus Master for I/O transfer

Information is available for download on the web at http://www.weidmuller.ca/wireless

Fixed Mesh

Roaming

Typical Application

Customer Requirements:
- High throughput
- Security
- Maintenance connectivity
- Mesh
- Roaming vehicle

Product Types

Type	Description	Power	Max. Data Rate	Part Number
WI-MOD-945-E	900Mhz DSSS Ethernet Modem; 802.11 g	15 to 630mW	54Mbps	**6720005015**
WI-MOD-E-G	2.4Ghz DSSS Ethernet Modem; 802.11 b/g	15 to 400mW	Up to 108Mbps	**6720005054**
WI-MOD-E-A	5.8Ghz DSSS Ethernet Modem; 802.11 a	15 to 400mW	Up to 108Mbps	**6720005057**

Industrial Fast Ethernet Media Converters

NEW

Weidmuller now offers six new models of media converters. This allows the user to extend an Industrial Ethernet network over much greater distances and even over hazardous locations.

- 10/100BaseT(X) auto-negotiation and auto-MDI/MDI-X
- Link Fault Pass-Through (LFP)
- Power failure, port break alarm by relay output
- Redundant power inputs
- Multiple LED indicators
- Two operating temperature range models: standard 0° to 60°C or wide range -40° to 75°C
- Models for SC or ST multimode fiber connections as well as SC singlemode
- Designed for hazardous locations (Class 1 Div. 2/Zone 2)

Want to learn more… The complete information is available for download on the web at http://www.weidmuller.ca/ethernet

2011 Employee and Salesperson of the Year

Weidmuller is proud to introduce the 2011 Employee of the Year, Mr. Rama Boodoo.

Rama has been with the company since September of 2002 in the capacity of warehouse shipper/receiver looking after customer orders for all of Canada, working out of our head office in Markham, Ontario. Rama's tireless efforts and winning personality made him a clear choice by managers and peers alike and we wish him continued success in his career at Weidmuller.
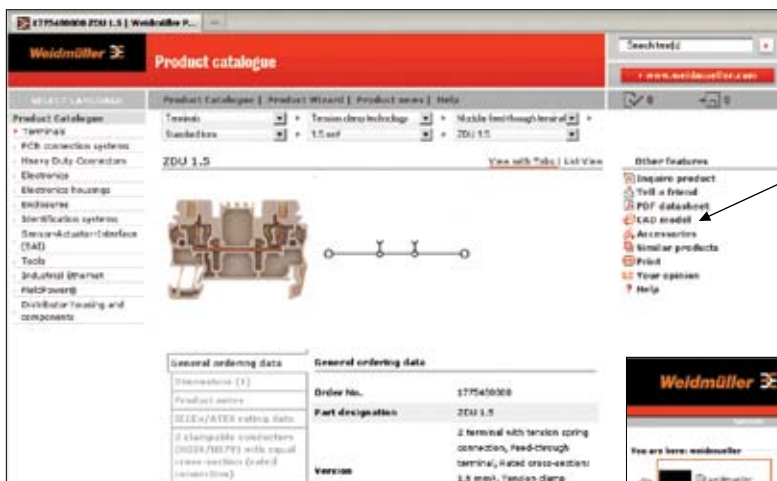

Weidmuller is equally proud to introduce our 2011 Salesperson of the Year, Mr. Shannon Gooden.

Shannon has been with the company since May of 2010 in the capacity of Technical Applications Specialist for the Calgary, Alberta area. Shannon's ambitious work ethic and outgoing nature has made him a great asset to the Alberta sales team and has won him the respect of customers, management and peers.

How to get CAD data on Weidmuller products

**Use the Weidmuller Online Catalog http://catalog.weidmueller.com**

Choose a product, click on "CAD model" and complete the contact form entering their name, company and email address. Choose the required format, click on "send" and you will get the generated data via email.

Use the Weidmuller Portal on PARTcommunity http://weidmueller.partcommunity.com

The online portal "PART Community" gives customers the chance to get three-dimensional CAD data of Weidmuller components for more than 30 different formats including AutoCAD, Catia, MegaCAD and STEP data.

The "PART Community" provides data about PCB components, Heavy Duty Connectors, Industrial Ethernet and FieldPower components, Sensor Actuator Interface (SAI) distributors and cables, housings for electronics as well as many other products.

Direct access is also available outside of the online catalog through the following address: http://www.weidmueller.sp02.partcommunity.com/PARTcommunity/Portal/weidmueller. Users must complete the **free** registration and activation of an account.
